

CAMERON BOEHMER

brief profile

OBJECTIVE

Seeking position as a web developer. Ideal role would demand front- and back-end skills, offering opportunities for high-level problem solving and engagement with product development.

LANGUAGES

Extensive experience with Python, JavaScript (including jQuery, and dabblings in YUI and Prototype), ActionScript 3, (X)HTML, and CSS; built a compiler in C, freelanced with PHP, acquainted with Java (including JSPs and servlets) and C++, familiar with OOP design patterns.

SOFTWARE

Capable on a LAMP stack (PHP or Python); at home on the command line using grep, git or svn, and bash script or Python to manage database and code repositories. No stranger to Windows, but on close terms with OS X and its BSD core. Fluent in Photoshop, used it constantly while freelancing to create mock-ups for sites and interfaces prior to coding, as well as graphic art. Proficient with Flash, at home with Illustrator, competent with Dreamweaver, but prefer to code in emacs.

EDUCATION

Graduated June 2009 with a Bachelor of Science in Computer Engineering. Santa Clara University Honors Program student. Notable course work includes a compiler written in C, a web-based academic course planner, and an FTP client/server implemented in C. Starting defenseman on the 2006 SCU Lacrosse team. SCU Resident Assistant in 2007. Studied for a semester at University of Sydney in 2007.

employment

SLIDE

JULY 2009-PRESENT

Coded Flash components and viral features for various products including SuperPoke! Pets, built the front-end of Slide's Virtual Economy Platform payment system, and ported SPP Ranch to MySpace.

PAYPAL

SUMMER 2008

As a member of PayPal's Advanced Concepts Group, used Python, Flash, PHP, MySQL, JavaScript (including AJAX and YUI), and (X)HTML & CSS to productize an Internet-scale data visualization for fraud agents.

REDZWEB

NOV 2007

Executed three projects for this firm in Sydney, Australia, including a programmed Flash minisite with animated introduction, storyboarding, and website design.

ROGUE SHOES

2008, 2005

Built a database-driven Flash website including product catalog, dealer locator, photo gallery, employee bios, and FAQ with PHP / MySQL / XML backend and content management system. Revised in late 2008.

SANTA CLARA U.

JAN 2007

Contributed a standards-compliant website, letterhead, and logo to Santa Clara University's Solar Decathlon 2008 team as a volunteer. Used PHP, (X)HTML, and CSS.

CITY OF READERS

JAN 2007

Designed a companion website for Gabriel Boehmer's 2007 book, including a user-driven events calendar, photo gallery, and PHP / MySQL content management system.

BAKER'S MARK

SEP 2005

Conceived of and built a themed site using Flash for literary agency Baker's Mark. Database-driven, including PHP/MySQL content management system.

CHINOOK

DEC 2008

Developed the company's commercial client-facing site using PHP, (X)HTML, and CSS.

et cetera

entrepreneurial spirit and international collaboration

BRONCOBOOKS

FEB 2007

Created a used textbook marketplace and professor review website for students at Santa Clara University using PHP / MySQL, (X)HTML, and CSS. Developed in less than one week.

WEBSM@RT

JAN 2007

Researched server-push techniques under the guidance of a Ph. D. candidate, built an interface for a network bandwidth scheduler with Java servlets and JavaScript as part of an international project.
